PERSONAL STATEMENT

I am a Ph.D. candidate at UT Austin studying intergroup bias in online communication. I have 5+ years of experience in **Natural Language Processing** (NLP) including large language models, and am interested in **Machine Learning** and **Data Science** roles with a focus on customer facing products built in collaborative work environments, with a *start date in June 2024*.

EDUCATION

The University of Texas at Austin	2019–2024
Ph.D. Computational Linguistics	
University of Rochester	2017–2019
M.S. Computational Linguistics	
Indian Institute of Technology Madras	2012–2017
B.Tech & M.Tech Biological Engineering	

EMPLOYMENT

The New York Times	Summer 2023
Data Science Intern	
Built a framework using hierarchical (mixed effects) linear modeling for offline evaluation of novel user and article features to inform model building in algorithmic recommendations. Delivered potential features that could boost engagement up-to 2% while diversifying recommendations.	
Amazon	Summer 2021
Alexa Applied Scientist Intern	
Implemented an unsupervised method for detecting data drift in NLU models, and validated the approach on simulated and customer data. Received return internship offer for summer 2022.

SKILLS

Programming Languages: Python, Swift, Javascript, R, SQL, Julia, LISP

Tools & Frameworks: pyTorch, Transformers, Tensorflow, Keras, scikit-learn, statsmodels, SciPy, Pandas, SwiftUI, CoreML, BigQuery, lme4

Languages: English (native), Tamil (native), Hindi (intermediate)

RELEVANT COURSEWORK

Machine Learning, Natural Language Processing, Natural Language Generation & Discourse Processing, Logical Foundations of Artificial Intelligence, Statistical Speech Processing

APPS

DeTeXt: I built an open source app for iOS, iPadOS and macOS that predicts the best LaTeX commands corresponding to hand-drawn symbols using deep convolutional neural networks. Built using SwiftUI, Combine, PencilKit and CoreML, the app has **over 10,000 downloads**.

AWARDS

NASSLI Student Grant (800 USD)	Summer 2022
COLA Supplemental Graduate School Fellowship (5000 USD)	Spring 2020
Silver medal at International Genetically Engineered Machine (iGEM)	Fall 2016
Indian Biological Engineering Competition (iBEC) grant (15,000 USD)	Fall 2016
National BIRAC-IdeaThon on Antimicrobial Resistance Finalist	Fall 2016
Second runner up in 3M-CII Young Innovators Challenge	Spring 2015
